

On March 16, 2009 the meeting with the families of the people, perished in Abkhazian war was held at the Sokhumi State University. 19 members of the University staff were killed in the battles for Sokhumi. The students and academic personnel of the University once again paid a tribute to the memory of heroes.

March 15 and 16, 1993, is commemorated by the Georgian society, as in those grave days the Georgian soldiers together with the local population successfully repulsed the most aggressive attack of separatists, mercenaries and Russian landing forces. The army, artillery, military aviation and navy supported the hostile attack, but despite the heavy battles, the enemy was fully destroyed.

Today was the second meeting, held at the Sokhumi State University. The foundation for this tradition was laid last year and it will continue in future. The University Management bestowed to the guests the bifacial Icon of Jesus Christ from the Sinai Mountain and chandeliers.
